Morakniv Duty

There are many risks on a construction site; therefore, it is absolutely necessary to equip yourself with the appropriate equipment. With safety in mind, we have developed special knives for use at both high and low altitudes. With a hole on the back of the handle, fitted with equipment minimize the risk of losing it. Whether you are a painter, carpenter, wind turbine technician or need to carry out vertical work, Morakniv Duty can provide a safer working environment for you and your colleagues below you.

A close-up photograph of a Morakniv knife. The blade is made of stainless steel and features a fine, vertical ribbed texture. It is held by a grey, textured handle. The background is a blurred mix of green and brown, suggesting an outdoor setting. The lighting highlights the sharp edge and the metallic surface of the blade.

MORAKNIV
MADE IN
SWEDEN STAINLESS

Morakniv Basic 546 SE (S)

Morakniv has joined forces with Swedish suppliers Alleima and Rondoplast to embark on a collaborative effort in the development of a knife that is comprised of partially recycled materials.

With over 130 years of experience manufacturing knives in Sweden, many would probably say that we have come a long way, but we feel that our journey has just begun.

Morakniv Basic 546 SE (S) is made of Alleima's 80% recycled Swedish stainless steel and Rondoplast's 70% post-industrial polypropylene. This knife is available with either a polymer sheath or a 100% recycled cardboard blade cover from Swedish supplier TK-pack.

A close-up photograph of a person's midsection. They are wearing a white long-sleeved shirt, a wide tan leather belt or sheath, and dark blue trousers. A red and white patterned sash is tied around their waist. The background is a blurred green field. A red banner with the text "Classic Knives" is overlaid on the lower left.

Classic Knives

Morakniv Classic

Morakniv Classic collection is a true story. It is our tribute to the Swedish handicraft tradition that we have been part of for over a century. The Morakniv Classic carbon knife with the characteristic barrel-shaped, red-stained birch handle was first introduced around one hundred years ago with the ambition to portray an exclusive mahogany knife.

In the decades since, it has grown into one of the most beloved lifestyle knives in the world - a timeless Morakniv in its purest form. Generations of woodcarvers, carpenters and craftsmen have been using, personalizing and improving the knives ever since. Making it a part of their past memories and an indispensable part of their future.

This brings our collection of Morakniv Classic knives to the table, ready for a new era with hopes of memories still to be made.

MADE IN SWEDEN STAINLESS

Morakniv Steak Knife

Morakniv Steak Knives is a series of high-quality bistro knives that take both the table setting and the culinary experience to new heights. Developed for the connoisseur, the knives are an integral part of enjoying a good meal.

Steak Knife Masur was created in collaboration with the famous chef Mathias Dahlgren and designer Mårten Cyrén. Each Steak Knife is mounted by hand at the knife factory in Mora.

A part of you

Mendelsohn has been part of the Swedish handcraft tradition since 1898. The knives are made at our factory in Kiruna. You can see the master craftsman at work on the website.

Each knife is made and polished in this high-end workshop and is called by a name. Mendelsohn has been general manager of the company since 1998. He is also a hunter. The following passage was written by him about the Swedish Game of Life.

Quality takes no shortcuts

There's a special bond between the hands making a Morakniv and the hands using it. A shared philosophy that is carefully handed over from the knife manufacturer to the craftsman, the bushcrafter, the artisan, the chef, the hiker, or the explorer.

It took us 130 years to perfect the knives we sell today, and they're all produced in the village of Mora, Sweden. Because just like you, we know that quality takes no shortcuts.
